Daniel P. Lamblin

329 East 94th St. Apt. 12, New York NY 10128

daniell at slithy.toves.net,   http://www.syntaxerr.org/~daniell/resume/

Objective

A full-time software development position.

If you received this résumé, it would contain a more job-specific objective or cover letter than this web-résumé. I do contract and internship-style work in addition to my regular job on occasion. I would be interested in hearing from you if you found my abilities to be a potential fit.

Experience

Richmond Research   *Programmer*
New York, NY.   **February 2003 − Present**
Streamlined report generation and developed web based services using Perl, PHP, Visual Basic and Flash MX.

Mile New York   *Website Programmer*
Fort Lee, NJ.   **October 2002 − November 2003**
Established the backend Perl, CGIs, and MySQL database for MileNY's e-commerce site.
See http://www.milenewyork.com/.

EMC Corporation   *Associate Software Engineer*
Milford, MA.   **June 2000 − October 2001**
Maintained code-base by tracking defects and feature requests. Coordinated with team members and other groups for defect reproduction, analysis and patch testing. Made extensive use of C with RPC, threading, signals, and version control software.

Worcester Area Student ACM Chapter   *Web Master*
Worcester, MA.   **Aug. 1998 − Aug. 1999**
Maintained and configured Apache based web server.
Conceived and designed web site to be organized, and maintainable.
See http://www.acm.wpi.edu/.

Education

Bachelor of Science in Computer Science, May 1999.
Worcester Polytechnic Institute, Worcester, MA.

Courses: Introduction to Machine Learning; Video Game Design & Technology. [2003]
Columbia University, New York, NY.

Qualifications

Training: Sun course for Sys V Inter-Process Communication and Threading [2000]

Programming Languages: C, C++, Java, LISP, 80x86 and 68k Assembly, Visual Basic, VHDL

Tools: Perl, Unix Shell Scripts (sh, bash), PHP, clearcase, dbx

Operating Systems: Solaris, MacOS X, Linux, [Open/Net]BSD, Windows NT

Language Skills: Spoken and written English; spoken Swiss German and some French

Activities

Configure, maintain, and administer NetBSD and Linux servers for email, network storage, web, and sftp services.
December 1999 − Current

Consulted for the design, construction, programming and testing of the embedded component of a physical computing installation project with an artist at Parsons School of Design.
January 2002 − May 2002

Refined a LaTeX based system of formatting and editing résumés across four common formats through Makefiles and scripts. See http://www.syntaxerr.org/~daniell/resume/
October 2001 − November 2001 (some revisions made later)
